About ICAP 2017

We are hereby announcing one of the major events in 2017 in Europe related to Analytical Proteomics: the V—International Congress on Analytical Proteomics—ICAP 2017. This congress will be held from the 3rd to the 6th of July of 2017, in Caparica, Lisbon, Portugal.

The ICAP 2017 is a great opportunity to get the latest updates on proteomics, genomics, metallomics, metabolomics and mass spectrometry innovations. The idea is to join researchers from the different areas to discuss, learn and to initiate new collaborations with each others in an extraordinary and familiar environment .
