

BET-EU

MATERIALS SYNERGY INTEGRATION FOR
A BETTER EUROPE

**OPEN CALL TO
PARTICIPATE IN
"PRINTOCENT INNOFEST"**

JUNE 7-8 IN OULU, FINLAND

Extended deadline

1. Summary of the action

In the frame of BET-EU project (H2020-TWINN-2015, GA. n°692373) it is OPEN A CALL for two teams of PhD students or post-doc connected to the i3N hub and partner institutions, to join the **PrintoCent InnoFest** (<https://www.printocent.net/tapahtumat/printocent-innofest-2018/>) to be held in Oulu – Finland, June 7-8 2017.

InnoFest is an innovation competition and an excellent opportunity for developers, multidisciplinary innovators, start-ups, industry partners, brands, students, and investors to earn more about printed intelligence and activities around PrintoCent. During the event to support the competitors, the organization will provide world-class technical experts from VTT, Oulu based universities, other research institutions and companies to guide you and to embrace the most potential aspects of your ideation.

2. Action description

Scientific area: Printed intelligence and printed electronics

PrintoCent InnoFest is looking to have new innovative solutions in the following areas:

- Wellness & health (sports, disposable diagnostics, wearables) including nanostructures and nanoparticles
- Construction and interior design (sensors, lighting solutions etc)
- IOT – smart autonomous systems
- Commercial gadgets, packaging and point of sales (POS)
- Automotive and vehicles
- PLUS there's the "truly far from the conventional box" open idea stream, for something super neat that we could not even expect to wish for

Requirements and eligibility: PhD students and Post-Docs within i3N whose work plans are related with Printed intelligence and printed electronics for one of the mentioned areas.

To apply you need to bring marvellous idea and have a skilled team (two persons, maximum three, if duly justified).

Methods of selection: The jury chaired by Professor Rodrigo Martins, Professor Luís Pereira and other two researchers to be appointed from CENIMAT/I3N will evaluate the application's merit based on the following:

1. Motivation letter (maximum two pages) which should highlight your idea, present some results (if applicable) and the skills of your team members;
2. Short resume of the team;
3. Publications (if applicable).

Deadline and submission: The submission is open from 04/05/2018 to 16/05/2018. The teams selected will be informed by email at 21/05/2018. The applications must be send by email to Info@bet-eu.eu or dgaspar@uninova.pt.

The teams selected for the ***InnoFest*** will get support for travel and accommodation.

For further information, please contact Diana Gaspar (dgaspar@uninova.pt) or Info@bet-eu.eu
